🐾 After-market manipulation of upholstery is one of my passions.

I work and re-work the same pieces. Often I find sleeping on a piece gives me better clarity about its true nature. 🐾

But food is still my favorite thing.

🐾🐾 Presentation is everything.

If 90% of life is just showing up,  
89% is in the showing. Looking  
good is a gift I give to everyone  
in my path. 🐾🐾

But food is still my favorite thing.

🐾 I'm an amateur ornithologist.

Watching birds is a passion; analyzing how they work, anticipating how they move. You'd never have to pay me to watch birds. 🐾

But food is still my favorite thing.
